

# Picture Problems

A **picture problem** is a math equation that has pictures instead of numbers to help you find the answer! It is important to be able to count when trying to solve picture problems.

To solve an addition picture problem, you are finding the **sum** and you must:

1. Look at the symbol (This + symbol tells you that you have to **add**)
2. Count the pictures.
3. Write the numbers down.
4. Solve the problem or find the answer!

There is 1 orange and 4 oranges. This gives me 5 oranges!

 $+$  $=$ 

There is 1 pear and 2 pears. This gives me 3 pears!

 $+$  $=$ 

There are 4 apples and 2 apples. This gives me 6 apples!

 $+$  $=$

## Addition Picture Problems

Directions: Count each picture and find the sum.

$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
$$\begin{array}{c} \text{+} \\ \boxed{\phantom{0}} + \boxed{\phantom{0}} = \boxed{\phantom{0}} \end{array}$$
