

2. Planning

Project planning

Mariam and Sultan are learning about project planning.

Help them to complete the activity below by matching the project planning stages with their descriptions.

Stages	Description
Programming	This is usually a description of the requirements. Your program must meet the basic requirements to be successful. But, you should try to meet all of the requirements.
Testing	Here, you will think about what you did. This will help you improve in the future.
Self-reflection	This is about deciding what you need to do and when.
Project brief	You will also create an algorithm for your program
Planning	Here, you will create the program using development software.
	This step will let you show all the things you learned this term.
	You do this part to check that the program meets the requirements.
