

Activity 10

Test your calculator program. Does it meet the basic requirements?

If your program does not meet requirements, go back, and try to fix it. Then, write your results.

Test case	Result	
Does program output "Calculator" at the start of the program?	No ☐	Yes ☐
Does program set Answer to 0 at the start of the program?	No ☐	Yes ☐
Does input (D3) add 1 to Answer?	No ☐	Yes ☐
Does input (D10) subtract 1 from Answer?	No ☐	Yes ☐
Does input (D6) output Answer and play the buzzer?	No ☐	Yes ☐

Work in pairs. Read the project brief. Then, talk about the project.

Explain what you need to do to for the project. Write your answer below.
