NATURAL SCIENCE

UNIT 1: WHY DO BABIES HAVE MORE BONES THAN ADULTS?

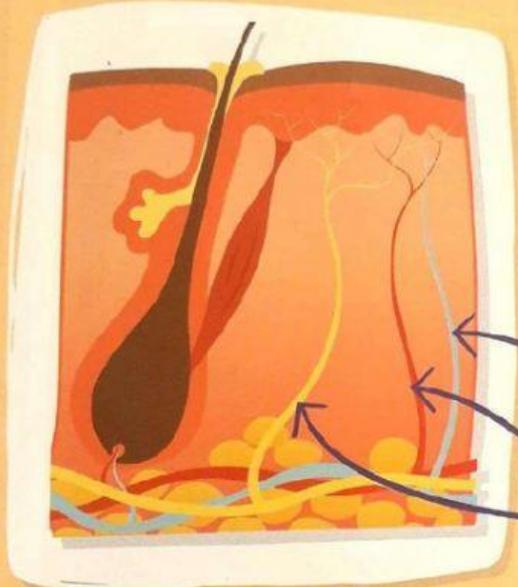

Teacher Laura

1. Read and complete:

How do we know that a tree feels rough, but a jumper feels soft?

Our body is covered in skin and our skin is the organ of \_\_\_\_\_

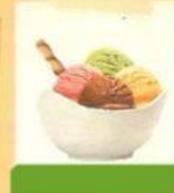

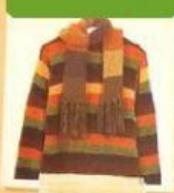

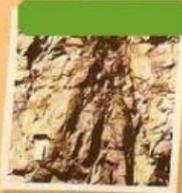

Our skin tells us if something is rough, smooth, hard or soft. \_\_\_\_\_ below the skin send information to the brain when we touch something. If something is too hot, our skin will tell us!

Rain!

How do these things feel?

Materials have different properties
