1.Write the words below

half past three • an hour • a minute • three o'clock • quarter to three • a second • a watch

1 _____ 2 _____ 3 _____

4 _____ 5 _____ 6 _____ 7 _____

2.Write the correct word

I haven't got a (1) **quarter** _____, but I've got a clock on my wall and it says it's 12 o'clock. I have lunch at one (2) **seconds** _____. That's in one hour, or 60 (3) **o'clock** _____. And there are 60 (4) **watch** _____ in a minute, so that's 3,600 seconds from now. And (5) **hour** _____ an hour after lunch, at half (6) **to** _____ one, I have a sleep, so that's another 1,800 seconds. I usually sleep for two hours. That's 120 minutes or 7,200 seconds. A (7) **half** _____ of an hour later, at about quarter (8) **minutes** _____ four, I often have an apple. One of the visitors gives it to me. A quarter of an (9) **past** _____ is 15 minutes. That's 900 seconds. So, if my maths is right, I get my apple in about 13,500 seconds. It's true I'm just an old donkey called Ned, but my brain still works well!
