The Smoobo

Smoothest Smoothies with Blending Bounce

Are you tired of trying to get your children to eat their five-a-day? Do you like the taste of a smoothie but hate the boring blending work? Do you want a Smoothie maker with unparalleled fun?

The Smoobo Blender! Smoobolise!

Simply pop your ingredients inside the colourful blending ball, have fun bouncing the ball and pour out your delicious tasting smoothie.

No need for a plug – Smoobo uses our award-winning blending technology with blades powered by Kinetic energy to give you the smoothest smoothie ever.

Kid-Safe

Once an adult has placed in the ingredients and the blade, kids can go bounce-tastic with the Smoobo.

Tied to the kitchen?

Not with the Smoobo. The kinetic-powered blades mean the Smoobo can be taken anywhere -the playroom, garden or even the park!

Super Smoobo

The Roto-blade technology blends ten times faster than your usual smoothie maker cutting your blending time in half.

Colourfun

The Smoobo is now available in Strawberry Pink, Blueberry Blue and our special edition glow in the dark Nightbopper.

"I really struggled to get my children to eat their fruit and veg but with the new Smoobo it's effortless. They can't wait to pour the ingredients in and love bouncing the blender and drinking the healthy smoothie." Jan Applest, Mother of Three.

Say hello to your friendly Smoobo!

Buy it! Bounce it! Blend it!
