12 Read and answer 'yes' or 'no'.

The Space Race started in 1957 when the Soviet Union sent a satellite into space. It was called Sputnik 1. A satellite is something which goes round Earth.

The Soviet Union then sent a dog called Laika into space in Sputnik 2. Next, the USA sent its own satellite, called Explorer 1, into space. In 1958 the USA started their space agency called NASA. Three years later in 1961 the Russian, Yuri Gagarin, became the first person to orbit Earth in a spaceship. It wasn't until July 1969 that the American astronaut, Neil Armstrong, became the first person to walk on the Moon.
