

Summative Evaluation 7th Form Term II

I. Listen to the recording and match the job with its description. 6 points.

teacher carpenter secretary police officer nurse plumber

Joanna	Julie
Marian	Sam
Eric	George

I. Read the text and choose TRUE or FALSE-10 points.

There are many jobs that allow you as a person to discover your talents. Some people become experienced plumbers, or determined lawyers, responsible accountants, or skilled salesmen, active teachers, or hardworking doctors. Jobs can be full-time or part-time. Jobs can also be focused on physical qualities such as sportsmen. Some sportsmen work as weightlifters, others as referees, some are climbers, and others are surfers. In the Republic of Moldova many people turn to Arts to express themselves and to promote the culture and traditions.

Furthermore, creative work has always been considered as a fundamental way of expressing oneself artistically. The most important thing about creative work is that anyone who has the talent for artisanship can go in for arts. In the Republic of Moldova people often turn to artisanship, tapestry, appliqué or embroidery to represent our customs, traditions and values. People work in various areas to feel involved in social life. Even people who lack the abilities of performing physically very well, can still get involved in creative work. There are many different exhibitions where the works of people that have some deficiencies and disabilities are presented and the money go into funds of various charity events. As people with all the abilities we need to show compassion and empathy for people with disabilities. We need to get involved in charity events and not pass by indifferently.

1. There few jobs that allow you as a person to discover your talents. T F
