Fact Family Worksheet

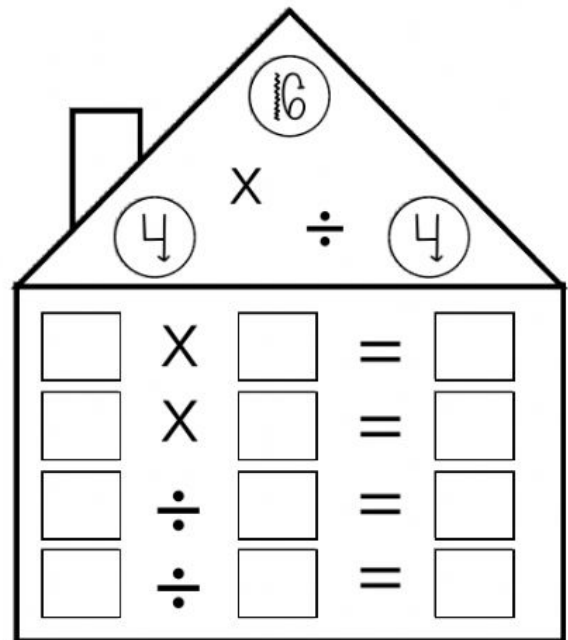

A house-shaped diagram for a fact family. The roof contains the numbers 4, 9, and 36 in circles, with a multiplication sign (X) and a division sign (÷) between them. The main body of the house contains four rows of boxes for equations: two for multiplication and two for division.

Roof: $4 \times 9 = 36$ and $36 \div 9 = 4$

Body:

A house-shaped diagram for a fact family. The roof contains the numbers 4, 4, and 16 in circles, with a multiplication sign (X) and a division sign (÷) between them. The main body of the house contains four rows of boxes for equations: two for multiplication and two for division.

Roof: $4 \times 4 = 16$ and $16 \div 4 = 4$

A house-shaped diagram for a fact family. The roof contains the numbers 8, 3, and 24 in circles, with a multiplication sign (X) and a division sign (÷) between them. The main body of the house contains four rows of boxes for equations: two for multiplication and two for division.

Roof: $8 \times 3 = 24$ and $24 \div 3 = 8$

Body:

A house-shaped diagram for a fact family. The roof contains the numbers 2, 10, and 20 in circles, with a multiplication sign (X) and a division sign (÷) between them. The main body of the house contains four rows of boxes for equations: two for multiplication and two for division.

Roof: $2 \times 10 = 20$ and $20 \div 10 = 2$

Body:
