Matter listening activity

Listen and complete the text:

MATTER is anything that has ,  and takes up space. Matter is everything that we can see, touch, taste and smell in our daily lives. You see matter everywhere you look. The clouds are made up of  (mostly water), the Earth is made up of matter, your notebook y made up of matter and so are you!

Matter can be broken into very little .  The smallest pieces of matter are called . 

Matter has properties.

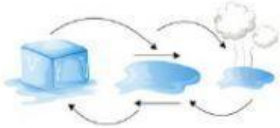

Property is a characteristic that describes matter.  and are  properties of matter.

Colour,  and shape are other characteristics of matter.

Volume is the amount of  that matter takes up.

 is the property that describes how much matter is in a given space, or . 

Properties describe matter. A block of wood, a rubber glove, milk and air all have properties. All the matter on Earth is in one of three states: solid, liquid or gas.
