

## SUBTRACTIVE COLOUR MIXING

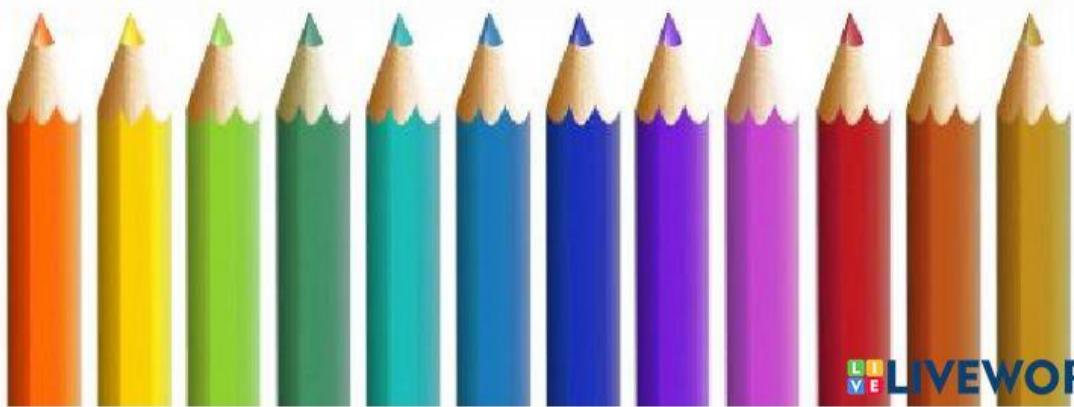

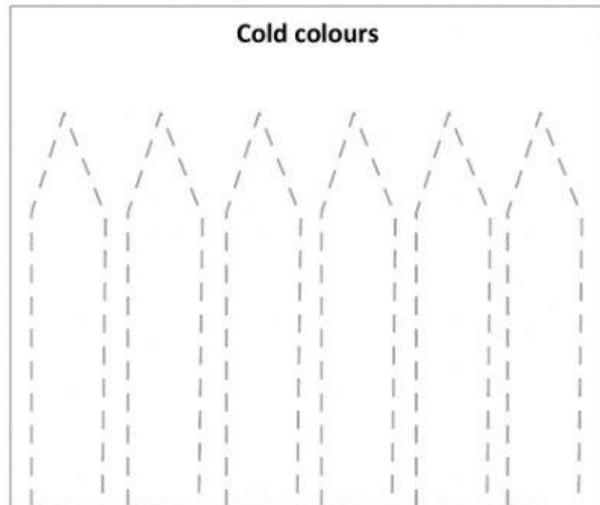

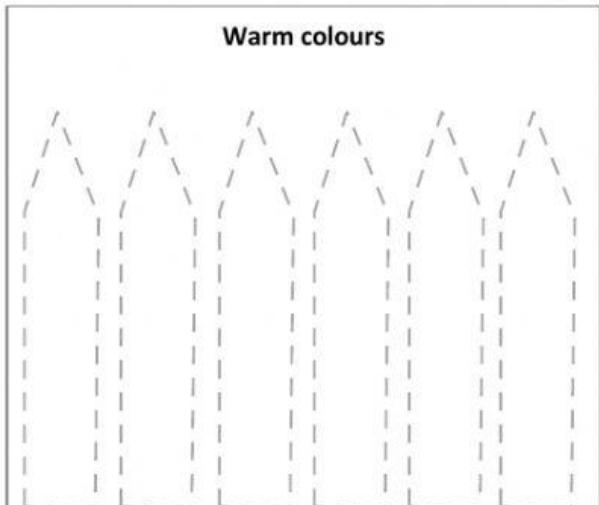

1. Drag and drop the colours on the right in the following color wheel.  
Write their names too.

2. Match each colour with its complementary colour:

3. Classify the following coloured pencils depending on the colour temperature. Drag and drop them into the correct box.

4. Which is the colour you get when you mix these colours?

$$\begin{array}{c} \text{Yellow paint can} \\ + \\ \text{Blue paint can} \end{array} =$$

$$\begin{array}{c} \text{Yellow paint can} \\ + \\ \text{Red paint can} \end{array} =$$

$$\begin{array}{c} \text{Magenta paint can} \\ + \\ \text{Blue paint can} \end{array} =$$

$$\begin{array}{c} \text{Magenta paint can} \\ + \\ \text{Yellow paint can} \\ + \\ \text{White paint can} \end{array} =$$

$$\begin{array}{c} \text{Yellow paint can} \\ + \\ \text{Blue paint can} \\ + \\ \text{Black paint can} \end{array} =$$

$$\begin{array}{c} \text{Blue paint can} \\ + \\ \text{Green paint can} \\ + \\ \text{White paint can} \end{array} =$$
