Analysing natural rubber

1) Natural polymer and its monomer

Polimer semulajadi *Natural polymer*	*Monomer*
Getah asli *Natural rubber*	
Kanji *Starch*	
Selulosa *Cellulose*	
Protein *Protein*	

2) Getah asli
natural rubber

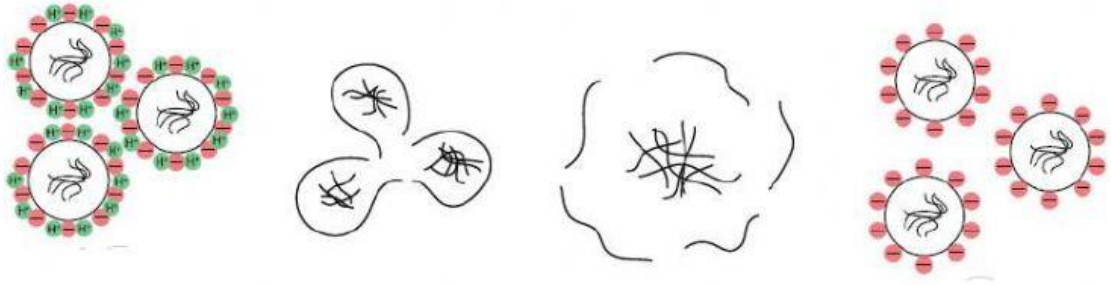

- Nama IUPAC monomer bagi getah asli *IUPAC name of monomer of natural rubber*	
- Nama biasa bagi monomer getah asli *Common name of monomer of natural rubber*	
- nama biasa getah asli *common name of natural rubber*	

LIVEWORKSHEETS

***3)* Penggumpalan getah**
Coagulation of latex

- coagulation of latex process / *proses penggumpalan lateks*

***Langkah*/step**	***Gambarajah* /diagram**
Langkah 1/step 1 - the _____ charged _____ membrane causes rubber particles to repel each other	
Langkah 2/ step 2 - _____ is added - _____ ion from acid _____ the _____ charged of protein membrane	
Langkah 3/ step 3 - *Rubber particle _____ with one another that cause the membrane to _____*	
Langkah 4 / step 4 - *Rubber polymer _____ with one another cause latex to _____*
