

Activity 18

```
1. for num in range (1, 5, 1):  
2.     print("Iteration number is: ", num)
```

(a). Run the code. How many lines are printed? Why?

(b). What do you need to do to print five lines? Change the code.

(c). Change the 5 to 100. What happens when you run the code?
