Activity 18 Lab
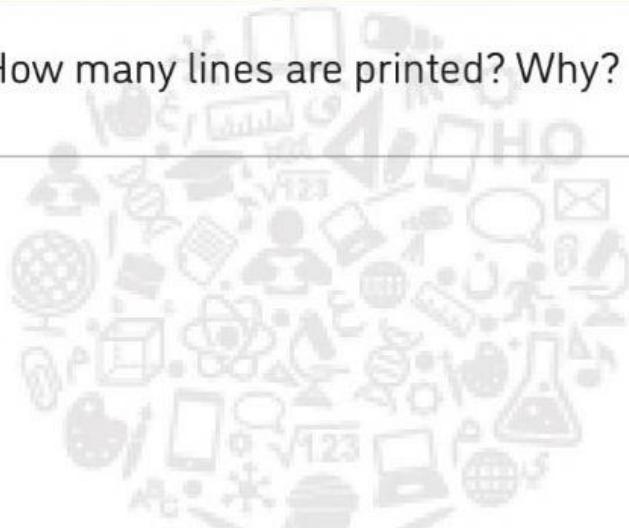

```
1.  for num in range (1, 5, 1):
2.      print("Iteration number is: ", num)
```

(a).   Run the code. How many lines are printed? Why?

(b).   What do you need to do to print five lines? Change the code.

(c).   Change the 5 to 100. What happens when you run the code?
