10 Complete the text. Use *(not) as ... as* or the comparative form of the adjectives in brackets. Type the answers. Then check.

New Types of Pets

Many people can't have real pets, but anyone with a computer can have a virtual pet. Virtual pets are 1. _____ (easy) to care for than real pets. Some people think they are 2. _____ (interesting) than real pets, too, but others think they are 3. _____ (not good) as real ones.

Do you want to take your pet for a walk? Then maybe you should get a robotic pet. Robotic pets are 4. _____ (cute) than virtual pets. Some of these robots are 5. _____ (small) as a key, so you can put them in your schoolbag. Others are 6. _____ (big) than a real cat or dog. They are 7. _____ (good) than some virtual pets because they can show you their feelings. Some of them are 8. _____ (intelligent) than a real pet and can even speak and sing!
