### My vacation at the zoo

Last summer, before the Corona virus, my family and I went to the National Zoo Park. It was a lovely day! We saw so many animals, and they were very cute. My favorite animal was the camel from the "Desert habitat". There were also many flamingoes.

In the "Savannah habitat", there were cute elephants, hippos, giraffes, and fierce lions, but the ones I liked the most were the playful and clever monkeys, eating bananas.

There was a habitat called "Forest animals", and we found wolves, owls, foxes, and deer. There was a baby deer called "Bambi" that was born last year and it was very cute.

At the "Farm habitat" they allow you to pet the animals. My sister loved the baby pigs, chickens and cows, and she could pet the sheep. My favorite were the geese that followed us everywhere.

Finally, we went to see the habitat called "Ocean". There were so many fish! My dad liked the dolphins, and my mom loved the whales. My favorite were the octopi, because they were friendly.

Yesterday, I was looking at the photos that we took. These are some of the photos.
