

## Isi padu bentuk gabungan Tahun 5

1) Kira isi padu kubus dan kuboid berikut.

a)

$$7 \text{ cm} \times 7 \text{ cm} \times 7 \text{ cm} = \boxed{\quad} \text{ cm}^3$$

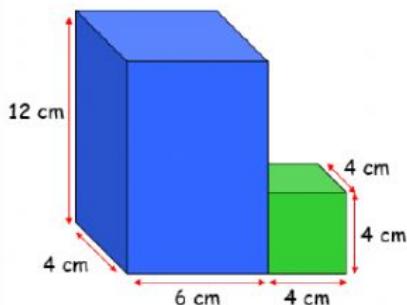

b)

$$10 \text{ cm} \times 3 \text{ cm} \times 5 \text{ cm} = \boxed{\quad} \text{ cm}^3$$

2) Hitung isi padu bentuk gabungan berikut.

a)

Isi padu kuboid

$$6 \text{ cm} \times 12 \text{ cm} \times 4 \text{ cm} = \boxed{\quad} \text{ cm}^3$$

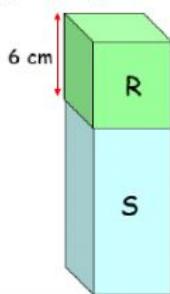

Isi padu kubus

$$4 \text{ cm} \times 4 \text{ cm} \times 4 \text{ cm} = \boxed{\quad} \text{ cm}^3$$

Isi padu bentuk gabungan

$$\boxed{\quad} \text{ cm}^3 + \boxed{\quad} \text{ cm}^3 = \boxed{\quad} \text{ cm}^3$$

b) Tinggi kuboid S ialah dua kali tinggi kubus R. Cari isi padu bentuk gabungan berikut.

$$\text{Isi padu kubus} = \boxed{\quad} \text{ cm}^3$$

$$\text{Isi padu kuboid} = \boxed{\quad} \text{ cm}^3$$

$$\text{Isi padu bentuk gabungan RS} = \boxed{\quad} \text{ cm}^3$$
