## 1. Read and macth

| A tall, vertical mass of rock | Cliff  |
|-------------------------------|--|
| A body of salt water          |  |
|                               | Ocean  |
| An opening in Earth's crust   |  |
| through which gases, ash and  |  |
| lava erupt                    | Volcano  |
|                               |  |
| Land surrounded by water on   |  |
| all sides                     | Island   |
|                               |  |
| 2. Match                      |  |
|                               |  |
| Crater                        |  |
| Claici                        | Coastal landscape  |
| Hipocenter                    | Coastai ianuscape  |
| Hipocenter                    | To decide the second se |
|                               | Eathquake  |
| Epicenter                     |  |
|                               | Volcano  |
| Beach                         |  |
|                               | Inland landscape   |
| Cape                          |  |
| •                             | Eathquake  |
| Mountain range                | per experience of the first of  |
