Reinstoff

Metall

The diagram illustrates the hierarchical structure of the website www.chemieseiten.de. The root node is the website name. It branches into two main categories: '1' (left) and an unnamed category (right). The unnamed category further branches into two sub-categories. The left sub-category branches into three items labeled '2', '3', and '4'. The right sub-category branches into two items labeled '5' and '6'. Each item is represented by a box, and the numbers 1 through 6 are placed in boxes next to their respective nodes. Two vertical bars with 'A' and 'Z' and a downward arrow are positioned next to the sub-categories, indicating alphabetical sorting.
