

# PERÍMETROS Y ÁREAS DE FIGURAS GEOMÉTRICAS

## EXPRESIONES ALGEBRAICAS

NOMBRE DEL ALUMNO:

### ACTIVIDAD 1.

ELIGE LA EXPRESIÓN ALGEBRAICA QUE REPRESENTA EL PERÍMETRO DE LAS FIGURAS.

|                                                                                             |                                                                                                    |                                                                                           |                                                                                             |
|---------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <br>$x+2$ | <br>$\frac{1}{2}$ | <br>$w$ | <br>$x$ |
|          |                 |       |        |

$3x$

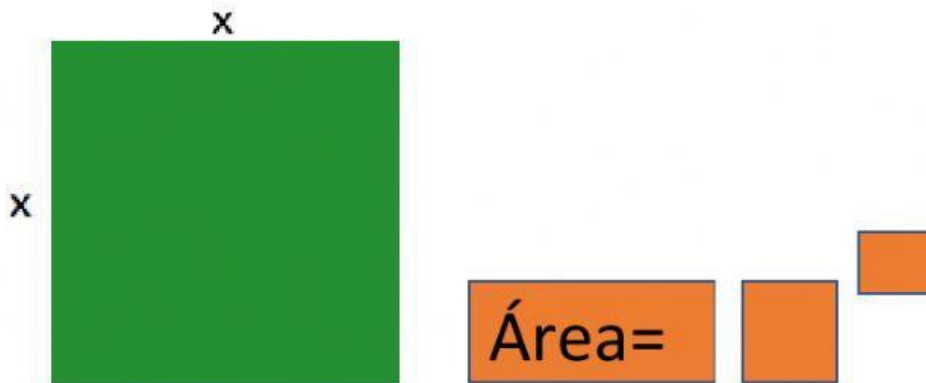

$4w$

$2a+1$

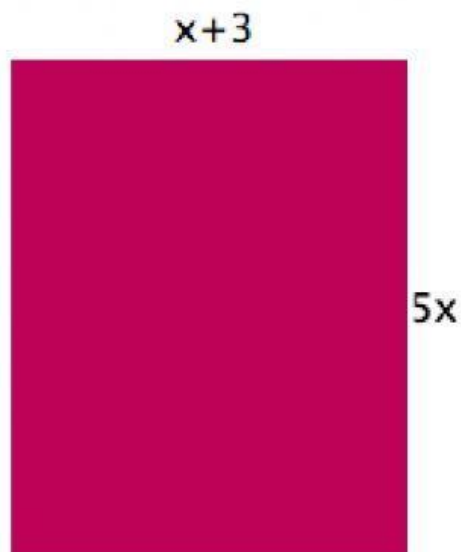

$8x+16$

## ACTIVIDAD 2.

ELIGE LA EXPRESIÓN ALGEBRAICA QUE REPRESENTA EL ÁREA DE LAS FIGURAS.
