Complete the table to outline the uses of the major fishing equipment. Drag and drop the correct answers into the table or select the correct answer from the drop down menu.

Equipment Name	Equipment Diagram	Uses of Equipment
		
Lure		
		A small device consisting of two rings connected to a pivoting joint. It allows the line to untwist so it doesn't get tangled
		
		Floats in the water and bobs around if a fish bites or makes a noise when a fish tugs on the line
