

Listen and complete the song with the correct words:

# Planet earth

Only came outside <sup>1</sup> watch the night fall with the rain

I heard you making patterns rhyme

Like some new romantic looking <sup>2</sup> the TV sound

You'll see I'm right some other time

Look now, look all around, there's no sign <sup>3</sup> life

Voices, another sound, can you hear me now?

This <sup>4</sup> planet earth, you're looking <sup>5</sup> planet earth

Bop bop bop bop bop bop bop this <sup>6</sup> planet earth

My head is stuck on something precious

Let me know if you're coming down to land

Is <sup>7</sup> anybody out there trying to get through?

My <sup>8</sup> are so cloudy I can't see you

Look now, look all around, there's no <sup>9</sup> of life

Voices, another sound, can you hear me now?

This <sup>10</sup> planet earth, you're looking at planet earth
