

It's aDecember night

The is so romantic

Under this blanket, there is room for two

We together watching "Home Alone"

For the hundredth time

Wow, it's so Christmassy

Everywhere I

And this gluhwein won't

Just itself

..... is lit up by candlelight

But all of this means so
to me

Compared to if you would be

Always here by my side 'cause

Every moment is like Christmas with you

I don't

What all this fuss is about

We don't have to do

I don't those boxes under the
tree

You are the only thing I need, because
