

Unit 12: THINKING OUTSIDE OF THE BOX

SKILL: READING

Work in pairs.

1 Discuss how Alex used the things around him to help him to survive.

2 If you are shipwrecked on an island and you discover fierce animals there, what will you do to keep yourself safe?

Answer the questions.

1. To help them think of what to invent, the children identified a problem that needed to be solved. What was the problem?

2. What special qualities or talents do you think the children had that helped them to be successful young inventors?

3. Will you use the invention in your home? Why?
