### Put the events in the correct order:

- They asked people questions to see that they weren't criminals
- They checked that immigrants had a place to live and money to spend
- They brought their family
- Doctors checked immigrants and treated them when they were sick
- The government built Ellis Island to check new immigrants
- They spent all their money to travel to the US
- Many people from other countries moved to the United States to have new opportunities.
- Men traveled to the US and saved money
