Look at some activities for community development and to match them with the reasons why they are important.

1. Building houses for low-income people	a. They are prepared for job market and find better employment.
2. Building facilities like kindergartens, schools and parks	b. This is important because we need the Earth for life.
3. Widening roads, fixing running water, providing electricity in rural and remote areas	c. When people have a place to live, they can develop other parts of their lives.
4. Training young people for jobs	d. These are necessary facilities for daily living.
5. Protecting the environment and ensuring healthy lifestyles	e. Without these basic things, there areas cannot develop.
