

Global warming is one of the biggest threats to our environment. What causes global warming? What solutions are there to this problem? Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Paragraph 1

- Introduction

- Definition of global warming: increasing temperatures due to air pollution (climate change)
- Plan of essay: causes/solutions

Paragraph 2

- Causes

- Cutting down trees (e.g. due to population growth)
- Burning fossil fuels (cars, power stations, factories)
- Using too much electricity (computers, TV, lights)

Paragraph 2

- Solutions

- Renewable energy (solar, wind)
- Manage the rainforests (less cutting, more planting)

Make sure your answers to two-part questions are balanced. Don't spend too much time on one part so that you don't develop the other.

- Transport solutions (share cars, use public transport)

Paragraph 4

- Conclusion

- Summarise causes and solutions
- Recommendation: we can all try to be more 'green'
