

Subject: Math 2

Topic: Meaning of Division (\div)

Name: _____

Meaning of Division (\div)

Division means sharing equally.

There are 12 roses. The roses are shared equally among 3 teachers.

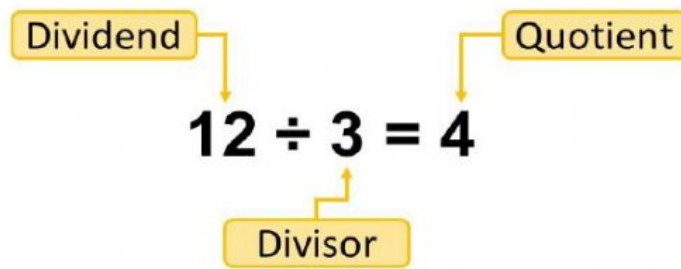

Each teacher gets 4 roses.

We write the number sentence as:

$$12 \div 3 = 4$$

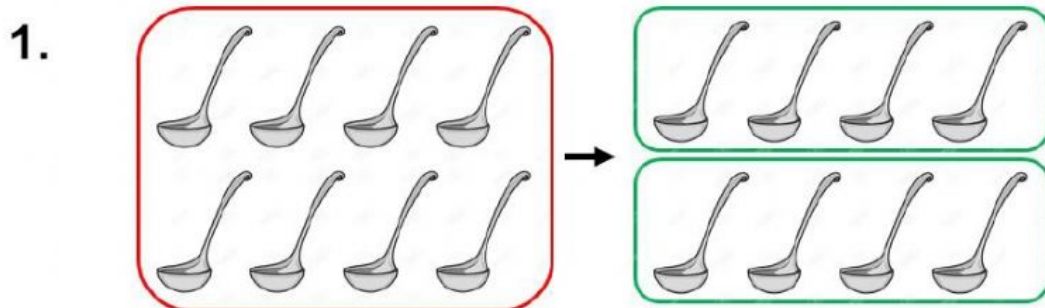

$12 \div 3 = 4$ is a **division equation**.

We read the number sentence as

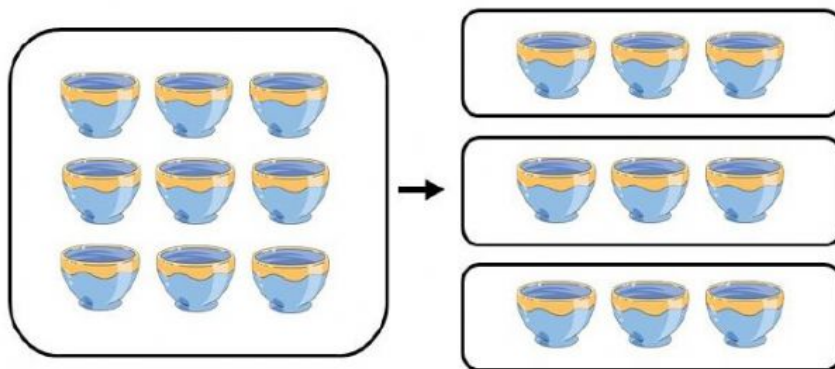

'twelve divided by three equals four'

Count the objects and fill in the blanks.

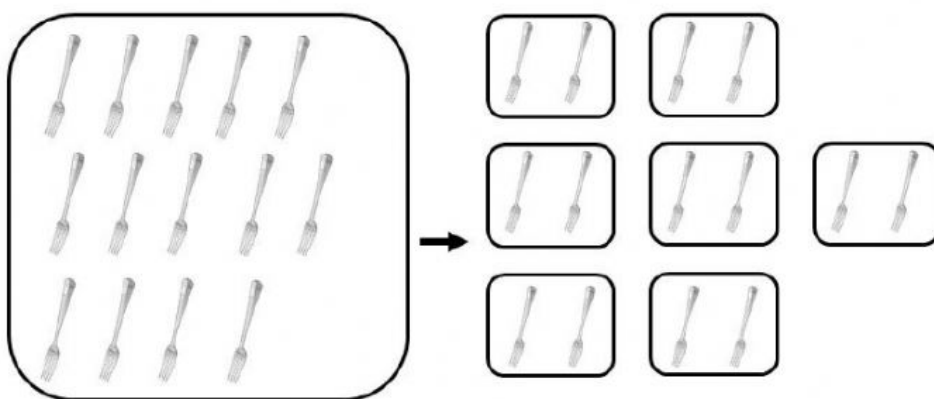

$$\boxed{8} \div \boxed{2} = \boxed{}$$

2.

$$\square \div \square = \square$$

3.

$$\square \div \square = \square$$
