TKT II

UNIT 22

Key Conceps

Assessment	To assess the performance of laboratories for their conduct of specific test, measurements or calibrations.
Informal Assessment	To assess a student's relative strengths and weaknesses in a given subject and the results provide an analysis of students' proficiency.
Formal Assessment	A test to determine a student's current skill level and is usually associated with a grade level
Proficiency Test	To measure skills and knowledge learned in a given grade level, usually through planned instruction, such as training or classroom instruction.
Achievement test	Is a written knowledge exam (usually involving multiple-choice questions) and usually twice to four times yearly throughout the entire academic program.
Progress test	To collect information about learners' performance, progress or attitudes in order to make judgements about their learning.
Placement test	
Diagnostic test	To get other information about the progress of individual students, we can take a class test.
	Take an assessment during a lesson by monitoring and observing students as they perform ordinary classroom activities.
