Misguided Ghosts - Paramore

I'm _____ away for a while
But I'll be back, don't try to follow ____
'Cause I'll return as soon as possible
See I'm _____ to find my place
But it might not be here where ___ feel safe
____ all learn to make mistakes

And run
From ____, from _____
With no direction
Run from _____, from _____
With no conviction

'Cause I'm just one of those ghosts
_____ endlessly
Don't need no road
In fact they follow ___
And we just go in circles
But now I'm told that this is life
And pain is just a simple compromise
So _____ can get what we want out of ___

Someone care to classify,
A broken heart and twisted minds
So ___ can find someone to rely on

And run
To them, to them
Full speed ahead
Oh you are not
Useless
We are just

Misguided ghosts
Travelling endlessly
The ones we trusted the most
Pushed us far away
And there's no one rule
And we should not be the same

But I'm just a ghost
And still they echo ____
They echo ___,
They echo ___ in circles
