Read the following passage and mark the letter A, B, C, or D on to indicate the correct answer to each of the questions.

You can do a few things to make homework less stressful. First, be sure you understand the assignment. Write it down in your notebook or day planner if you need to, and don't be afraid to ask questions about what is expected. It is much easier to make a minute to ask the teacher during or after class than to struggle to remember later that night! If you want, you can ask how long the particular homework assignment should take to complete so you can plan your time.

Second, use any extra time you have in school to work on your homework. Many schools have libraries that are specifically designed to allow students to study or get homework done. The more work you can get done in school, the less you will have to do that night.

Third, pace yourself. If you don't finish your homework during school, think about how much you have left and what else is going on that day, and then plan your time. Most middle students should have between 1 and 3 hours of homework a night. If it is a heavy homework day, you will need to devote more time to homework.

33. The most important thing that you should do when you get your assignment may
