

IELTS ACADEMIC

Reading is the second part of the IELTS test, and takes 60 minutes. It consists of three or sometimes four reading passages of increasing difficulty, and there is a total of 40 questions to answer. Though you can mark and write on the Question Paper, you must enter your answers on the Reading Answer Sheet, and be aware that no extra time is given for transferring your answers from the test booklet to the Reading Answer Sheet.

The Academic and General Training Reading Tests are graded to the same level. However, because the texts in the Academic Reading Test are more challenging overall than those in the General Training Test, more questions need to be answered correctly on a General Training Test to receive the same grade.

Reading Tip

As a general strategy, do not start by reading the passage. You do not yet know what information you are looking for, and you will waste precious time if you try to read and understand every detail.

- Firstly, read the heading of the test. This will give you a very general idea of what the passage is about.
- Secondly, quickly read through the questions. This will help you focus when you read the text, as you will have some idea what to look for.
- Thirdly, turn to the passage, and read it through quickly. The purpose is to get a general understanding of the passage – you do not need to understand everything.
- Finally, turn again to the questions and begin to work through them, referring back to the passage when you need to, and reading important sections carefully and slowly.
