Tea

Tee is a very popular drink in many countries. People drink it at home, in tea shops and at school or at work. They enjoy it hot, cold or with ice and some people like it sweet or spicy!

A legend says that the Emperor Shennong in ancient China first discovered tea. One day, he was sitting under a tea tree. He boiled some water in a pot. Dry leaves from the tea tree fell into his hot water! He tried the water and it was very tasty.

Tea is easy to make. Put a tea bag in a cup, glass or mug. Add some boiling water. You don't have to wait long. After a few minutes you can drink it ready!

Scientists believe green tea is good for your blood. Does this tea help your brain? How do you feel after? Then you should try lemon tea. But be careful – you shouldn't put too much sugar in it because too much sugar is bad for you!

What do you want to do?
