

### 4.3 Houses of the future

Match photos A–C with descriptions 1–3. Use the photo captions to complete the texts.

1 In the \_\_\_\_\_ of the future all appliances will be connected through wireless networking systems. The house and car would use power that is collected through solar panels and stored.

2 ☐ \_\_\_\_\_ is a housing development where each household has a self-contained house or flat. People have the opportunity to eat together and meet regularly in a large communal house.

3 The \_\_\_\_\_ is designed to be twenty-five storeys high. If the concept became reality, it would feature a casino, an art gallery, a park, a shopping centre and accommodation for 50,000 people. It would cost \$10 billion to build.
