There are many communities that do not follow a modern way of life. They can be seen in all continents of the world. The Inuit are a group of people that live in the Arctic 1. _____. They 2. _____ live in houses called igloos made of snow. Some Inuit have modern vehicles like snow mobile, but they too follow the 3. _____ and traditions of their ancestors. Global warming is affecting the Inuit way of life too. In many places in the Arctic, ice is melting and 4. _____ fast. This causes very serious problems to many 5. _____ animals like polar bears and seals. The Inuit depend on seals for food and clothing, so when they are gone, their life will also be in trouble.
