

UNIT / 01: RELATIONSHIPS

READING

IN THIS UNIT YOU WILL LEARN HOW TO

- answer questions using up to three words
- identify key words in a question
- scan a text to find specific information.

LEAD-IN

01 **In pairs, explain the words in the box.**

Example: sister *My sister is my parents' daughter / other daughter.*

~~sister~~	brother	cousin	father-in-law	grandfather	uncle
aunt	nephew	niece	great-aunt	grandmother	

Tell your partner who you live with. Which other family members are you close to?

02 **You are going to read about some advantages of living in an extended family (i.e. not just parents and children living together). Which of the following advantages do you think are the most important?**

1 Older people are fun to live with.
2 Older people are patient and experienced.
3 You can save money by living together.
4 Grandparents are not as busy as parents.
5 Children get plenty of love and attention.

Read the text quickly and check which are mentioned. Ignore the highlighted words.

TIP 02

Don't worry if you don't know a word in the text. You can often guess the meaning by reading the *other* words in the sentence. And you may not need to know the meaning to answer the questions.

BLOOD IS THICKER THAN WATER

A Blood is thicker than water. This means that family is more important than anyone else. Many young people, though, spend more time with their friends than with their family. They value their friends' opinions more and enjoy their company. When it's time to visit grandma or go to a cousin's wedding, teenagers often prefer to be left at home. But are they missing out?

B In Asia, the Middle East, South America and Sub-Saharan Africa over 40% of children live in families with other adults such as aunts, uncles and grandparents in addition to their parents. In South Africa, it is almost 70%. On the other hand, in Europe, Australia and North America, less than 25% of children live in extended families. Is the *lack of close contact with relatives putting* some children at a disadvantage?

7 proverb	g (have an) effect (on)
8 appreciate	h believe something is important

SHORT-ANSWER QUESTIONS

In this type of task you have to answer questions using **up to three words,** or **up to two words and/or a number**. The instructions tell you how many words you can use. Short-answer questions test if you can find the right part of the text quickly and understand the information.

FINDING INFORMATION

0 4 **To practise finding information quickly, have a race with your partner to find the following phrases in the text. They are not in order.**

- grandparents' stories
- cousin's wedding
- young adults
- extended family
- come and go
- Italian proverb

How did you do this? Can you explain to another student how to find information quickly?

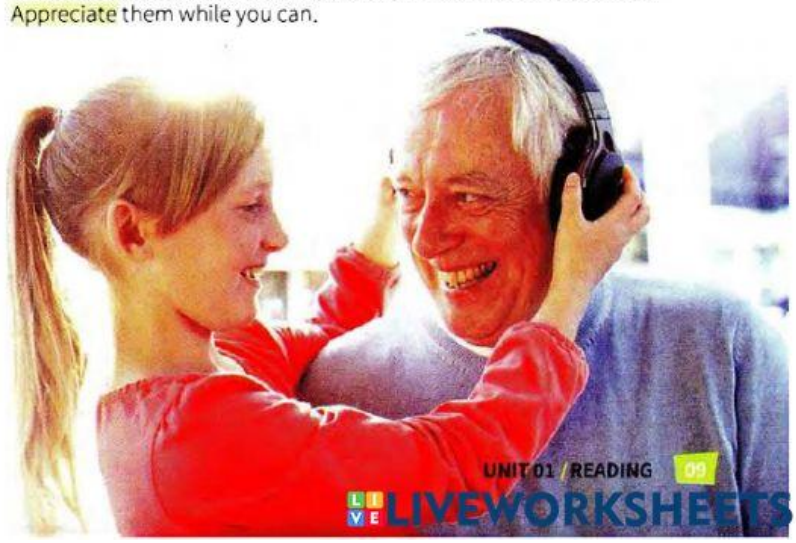

C The people they live with have a great influence on the way children grow up. Those who live with their extended family have many advantages. They usually get lots of love and attention. Grandparents often have more time to read to children and play with them. As they are often retired, they are not always busy and stressed as many parents are. They have learnt to be patient and they have already handled most of the problems children and young people face.

D It is good for children to grow up to understand the needs of older people: they may become more caring and less selfish if they spend time helping their grandparents. Children learn about the past from grandparents' stories. Sometimes they feel closer to their grandparents than to their parents.

E Young adults often feel that living alone will be exciting, but they forget that it can also be lonely. By remaining with the family during this stage of their lives, they can avoid this. They can also save money for their education and future.

F Young people whose grandparents live far away can gain some of these advantages by keeping in close contact by phone, email, letters and visits. It is nice to know there is someone you can go to if you have a problem. As the Italian proverb says, '*Se non sta andando bene chiamare la nonna.*' – 'If things aren't going well, call your grandmother.'

G Friends are important to young people, but friends come and go. Your family is always on your side. Grandparents won't be there forever. Appreciate them while you can.

GRAMMAR FOCUS: ADVERBS OF FREQUENCY

10 **Identify the frequency adverbs in these sentences from the text.**

1 Your family is always on your side.
2 Teenagers often prefer to be left at home.
3 As they are often retired, they are not always busy ...
4 They usually get lots of love and attention.
5 Sometimes they feel closer to their grandparents than to their parents.

*Grandparents **often** have more time to read to children.*

Often is an adverb of frequency. It gives us an idea of how often something happens. The present simple tells us about regular events, and adverbs of frequency are common with this tense.

11 **Study the position of the frequency adverbs in the sentences in exercise 10. With a partner, work out some rules on the position of frequency adverbs.**

EXAM SKILLS

12 **Read the passage and answer the questions below.**

SOCIAL MEDIA AND THE MEANING OF FRIENDSHIP

There have been a lot of scientific studies into what makes a friendship. It seems today that ideas of what friendship is are also changing. A study in 1993 at the University of Oxford showed that people could only maintain 150 relationships. However, with the explosion of social media since then, many people now have over 300 people who they think of as friends. Some people think that these friends are not real friends, but others believe that social media has helped us to expand and keep our friendships because we have more time and opportunities.

Another change from the past is that people don't stay in the place where they were born. They go to different cities and countries for education and jobs. People are in general more geographically mobile nowadays. This means that we have more chances to meet and make friends with people from different cultures and different backgrounds. People still often make friends at college who remain friends for life, but making new friends at work is more difficult. People now have less security at work and this also means that they find it harder to build new relationships.

As people get older, they sometimes also have less free time. They become busier with their jobs and families and have less time to spend with friends. Friendships can be very different when we are at different ages. Young children often choose their friends because of convenience, for example, they go to the same school, they live near each other or their parents are friends. As we get older, friendships are more connected with having similar interests and opinions.

One thing is definitely true though, it doesn't matter how old we are or how many friends we have on social media, friendship is good for our health. People who spend time with friends have fewer mental health problems and are generally happier and in a better physical state of health than people who spend their free time alone.

*Answer the questions below. Choose **NO MORE THAN THREE WORDS** from the passage for each answer.*

1 What has enabled people to have more friends than in the past, according to some people?
2 What phrase does the writer use to describe people who don't stay in the same place?
3 What work-related problem do people have that makes them less likely to form friendships?
4 What frequently influences the friendships of young children?
5 What are people with friends less likely to suffer from?
