- Reduced growth is an important complaint of coeliac disease.
- Two months following, the patient was able to walk.

- 14.4 Read the patient's description of her symptoms then complete the case report. Look at C opposite to help you.

I was well until a few months ago. In the beginning, I just felt off-colour and a bit tired. But lately I've been feeling completely worn out at the end of the day. I'm not eating any more than usual but I've put on nine kilos in the last year. My motions are hard and my hair has started to fall out.

Case 13

A 50-year-old housewife, who had been well until four months previously,
 (1) of tiredness and
 (2) She had (3)
 9 kg in weight in the year before she
 (4) to her GP although she
 denied eating more than usual. She was
 (5) and she noticed that her
 hair had started to fall out.
