

**Word Bank:**

Active transport

Bulk Transport

Cell receptor-mediated

Diffusion

Endocytosis

Exocytosis

Facilitated diffusion

osmosis

Passive transport

Phagocytosis

Pinocytosis

Protein pump

**Word bank:**

- Active transport
- Bulk Transport
- Diffusion
- Endocytosis
- Exocytosis
- Facilitated diffusion
- Passive transport
- Protein pump

1. What is the % of <u>glucose</u> outside the cell?	
2. What is the % of <u>water</u> outside the cell?	
3. What is the % of <u>water</u> inside the cell?	
4. What is the % of <u>glucose</u> inside the cell?	
5. Will osmosis occur?	
6. If so, which way will water move (into or out of the cell)?	
7. Will the cell swell, shrink, or stay the same?
