Name: _____ Student's No.: _____ Level/Class: <u>P6/1</u>

<u>TOPIC: Triangles</u>

I. Classify each triangle based on the characteristics of the sides.

1) ➡️ The triangle MKT is a/an _____

2) ➡️ The triangle OBJ is a/an _____

3) ➡️ The triangle ABC is a/an _____

II. Classify each triangle based on the characteristics of the angles.

4) ➡️ The triangle TKL is a/an _____

5) ➡️ The triangle ABC is a/an _____
6) ➡️ The triangle BAC is a/an _____

III. Find the perimeter of the triangles.

7)

The perimeter of the triangle XYZ is _____.

8)

The perimeter of the triangle DEF is _____.

9)

The perimeter of the triangle STU is _____.

10)

For the base $\overline{XZ}$, the height is _____.

For the base $\overline{YZ}$, the height is _____.

For the height $\overline{UZ}$, the base is _____.
