

MATHEMATICS YEAR 5

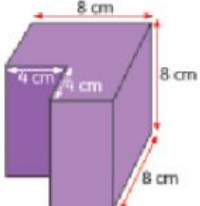

Topic: Volume of Composite Shapes

1.  Vol

Volume Cuboid	$10 \text{ cm} \times 8 \text{ cm} \times 17 \text{ cm} =$	cm^3
Volume Cube	$8 \text{ cm} \times 8 \text{ cm} \times 8 \text{ cm} =$	cm^3
Total of Volume	cm^3	

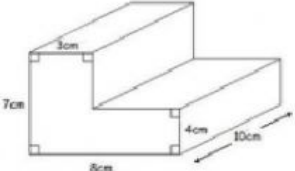

2. 

Volume Red Cuboid	$\text{m} \times \text{m} \times \text{m} =$	m^3
Volume Beige Cuboid	$\text{m} \times \text{m} \times \text{m} =$	m^3
Total of Volume	m^3	

3. 

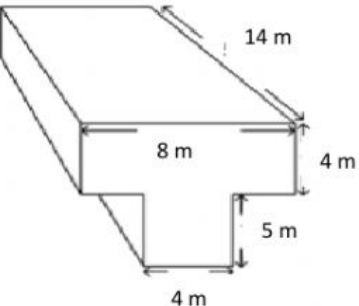

Do your calculation in a piece of paper, write your answer here.

cm^3

4. 

Do your calculation in a piece of paper, write your answer here.

cm^3

5. 

Do your calculation in a piece of paper, write your answer here.

m^3
