READING

Read the text. Then complete the task.

The world's oceans are becoming more and more polluted. I belief that humans are responsible for this pollution. Therefore, it is our duty to clean up the oceans around the world for future generation. To begin, most of the pollution in our ocean start on the land. People throw rubbish on the beaches and it ends up in the ocean. Also factories throw their waste into the water. Many people and animals are affected by ocean pollution. In fact, more than 70% of the earth's surfaces covered with ocean water, so it will be hard not to be affected by pollution. For example, animals may get wrapped in plastic bags in the water as dolphins or turtles. Sometimes they eat these plastic bags. Not only animals are victims of the pollution, humans themselves are also affected by ocean pollution. They eat seafood that may contain chemicals and heavy metals. What can we do about this problem?

First of all, everyone needs to help to keep beaches and ocean clean. They shouldn't throw their trash and rubbish on the sea. Conservation organizations and charity work hard to pick up the rubbish and clean oil spills. Moreover, billions of dollars are spent to save endangered sea animals. It is important to share in solving this problem either by spending your efforts or money.

For each item, shade in the bubble ○ next to the correct option.

1. The writer believes that ..... are responsible for ocean pollution.

○ animals ○ plants ○ humans

2. Most of the pollution in our ocean start on the .....

○ land ○ air ○ water

3. More than ..... of the earth's surfaces covered with ocean water.

○ 30% ○ 60% ○ 70%

4. Humans are also victims of ocean pollution because they are affected by .....

○ eating seafood ○ sleeping early ○ travelling

5. ..... of dollars are spent to save endangered sea animals.

○ Thousands ○ Hundreds ○ Billions
