FUNGI SONG

YEASTS, MOLDS AND ARE NOT ANIMALS, PLANTS
OR .
BECAUSE THEY BELONG IN A SEPARATE KINGDOM
THAT IS KNOWN AS TO SOME

THEY HELP US MAKE , BEER, WINE AND ,
AND DECOMPOSE STUFF AFTER IT'S DEAD

YEAST CAN FERMENT FOR YOU TO MAKE ALCOHOL AND CO2
THEY MAY BE SMALL WITH ONLY ONE CELL
BUT THEY MAKE BEER AND CHAMPAGNE AS WELL.

MOLD CAN BE FOUND WHEREVER YOU'VE GOT FOOD
THAT IS OLD AND STARTING TO ROT
SOME PRODUCE THAT ARE GOOD AT KILLING BACTERIA

A MUSHROOM IS PART OF A FUNGUS THAT'S FOUND
SPREAD LIKE A NETWORK OF THREATS UNDERGROUND
SOMETIMES IT POPS UP TO RELEASE SPORES
AND THAT IS WHAT A MUSHROOM IS FOR.

TRUFFLES TASTE GOOD AND HAVE A NICE SMELL
RECYCLING FOR US AS WELL
