

1. За зразками виконай додавання круглих багатоцифрових чисел.

$$6000 + 3000 = 9000$$

$$2000 + 12\,000 = \boxed{\phantom{0000}}$$

$$8000 + 45\,000 = \boxed{\phantom{0000}}$$

$$13\,000 + 19\,000 = \boxed{\phantom{0000}}$$

$$58\,000 + 33\,000 = \boxed{\phantom{0000}}$$

$$69\,000 + 45\,000 = \boxed{\phantom{0000}}$$

$$58\,000 + 79\,000 = \boxed{\phantom{0000}}$$

$$600\,000 + 170\,000 = 770\,000$$

$$320\,000 + 400\,000 = \boxed{\phantom{0000}}$$

$$180\,000 + 210\,000 = \boxed{\phantom{0000}}$$

$$430\,000 + 250\,000 = \boxed{\phantom{0000}}$$

$$870\,000 + 110\,000 = \boxed{\phantom{0000}}$$

$$240\,000 + 570\,000 = \boxed{\phantom{0000}}$$

$$145\,000 + 120\,000 = \boxed{\phantom{0000}}$$

2. За зразками виконай віднімання круглих багатоцифрових чисел.

$$6000 - 3000 = 3000$$

$$9000 - 2000 = \boxed{\phantom{0000}}$$

$$47\,000 - 4000 = \boxed{\phantom{0000}}$$

$$12\,000 - 9000 = \boxed{\phantom{0000}}$$

$$58\,000 - 33\,000 = \boxed{\phantom{0000}}$$

$$61\,000 - 44\,000 = \boxed{\phantom{0000}}$$

$$88\,000 - 79\,000 = \boxed{\phantom{0000}}$$

$$600\,000 - 170\,000 = 430\,000$$

$$820\,000 - 400\,000 = \boxed{\phantom{0000}}$$

$$540\,000 - 210\,000 = \boxed{\phantom{0000}}$$

$$430\,000 - 150\,000 = \boxed{\phantom{0000}}$$

$$710\,000 - 560\,000 = \boxed{\phantom{0000}}$$

$$630\,000 - 450\,000 = \boxed{\phantom{0000}}$$

$$950\,000 - 790\,000 = \boxed{\phantom{0000}}$$

1. Подай багатозифрове число як суму розрядних доданків.

$$56\ 725 = 50\ 000 + 6000 + 700 + 20 + 5$$

$$82\ 459 = \underline{\hspace{10cm}}$$

$$25\ 147 = \underline{\hspace{10cm}}$$

$$63\ 272 = \underline{\hspace{10cm}}$$

$$183\ 506 = \underline{\hspace{10cm}}$$

$$904\ 132 = \underline{\hspace{10cm}}$$

2. Запиши суму розрядних доданків числом.

$$70\ 000 + 8000 + 200 + 40 + 3 = 78\ 243$$

$$1000 + 700 + 5 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$

$$9000 + 200 + 40 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$

$$10\ 000 + 2000 + 400 + 80 + 1 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$

$$50\ 000 + 7000 + 60 + 6 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$

$$100\ 000 + 90\ 000 + 9000 + 500 + 10 + 3 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$

$$300\ 000 + 5000 + 600 + 4 = \boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}\boxed{\phantom{0}}$$
