Name: _____ **Date:** _____

Non-Standard Measurement

Measurement tells how long or how tall something is. **Non-standard measurement** means to measure with anything but it must be the same size objects. Remember there must be no overlaps or gaps when measuring.

E.g.

This scissors is 3 stars long.

This glue is 2 paper clips tall.

How many one cents long is each pencil?

This pencil is _____ one cents long.

This pencil is _____ one cents long.
