Directions: Cut out the phrases below and sort them under the correct heading.

Before accepting a friend request, Kate is always sure she knows the person that is asking to be her friend online.	Pete doesn't like a kid in his class, so he decides to post about it on social media.
To earn extra coins in a game, Jamal is asked to enter his home address and phone number. He really wants to get to the next level, so he enters the information.	When signing up for an account online, Jack uses a nickname instead of his full name to protect his identity.
After getting his new Google login, Nick puts it in a safe place at home so others can't find it. He also tells his parents what is, because he knows he can trust them.	Mia is writing a research paper on animal habitats. After finding some information on a website, she writes the site down as a source on her "works cited" page.
After school, John and his friends download a game onto their Chromebooks that they know is not school appropriate. They plan to delete it before school the next day.	When editing a classmates paper on Google docs, Laura leaves some silly comments instead of comments that are helpful.
Marcus posts pictures on Instagram to celebrate his team winning the championship game so his friends and family can see!	Emily and her friends think it is funny to Google inappropriate words just to see what results come up.
Something accidently pops up on Ben's computer that makes him uncomfortable. He immediately alerts an adult so they can take care of the problem.	While on Facebook, Brittany leaves hurtful comments on some of Hannah's pictures.
