## III. Read the following passage then choose T (True) or F (False)

The environment is everything around us. Like the trees, the plants, the sky, the air, the seas, the rivers, the deserts, the forests and the animals.

The environment is very important to our life. If the environment is clean, people will be healthy. If the environment is not clean, people will be unhealthy and sick.

Some people throw rubbish in the rivers and seas. The rubbish pollutes the water. We build a lot of factories. The smoke of the factories pollutes the air. Unhealthy water and unhealthy air make people sick.

Recycling is using old things again. We can use old plastics, paper and cloth again. Recycling helps people have less rubbish. Recycling keeps our environment clean and healthy.

1. The rivers are parts of the environment. ....
2. The environment is not important to our life. ....
