

LOWEST COMMON MULTIPLE I

(L.C.M.)

1.- Complete and find the L.C.M. of these numbers:

Multiples of 12	→					
Multiples of 18	→					
L.C.M.(12, 18)	=					

Multiples of 20	→					
Multiples of 50	→					
L.C.M.(20, 50)	=					

Multiples of 6	→					
Multiples of 15	→					
L.C.M.(6, 15)	=					

Multiples of 10	→						
Multiples of 14	→						
L.C.M.(6, 15)	=						

Multiples of 9	→						
Multiples of 21	→						
L.C.M.(9, 21)	=						

Multiples of 5	→						
Multiples of 8	→						
L.C.M.(5, 8)	=
