

The patients' ward

Read the descriptions and match with the part of the patients' ward:

NURSES' STATION

SOILED UTILITY ROOM

CONFERENCE ROOM

NURSES' LOUNGE

CLEAN SUPPLY ROOM

PATIENT ROOM

NURSES' STATION

VISITORS' TOILET

It's a room or area used for cleaning and disinfecting contaminated patient items, like bedpans.

It's an area where nurses can do administrative work and other activities (giving information to visitors, etc.)

Here the patients can rest. Doctors and nurses take care of them.

Patients' toilets are restricted, so visitors use other spaces.

The medical staff reunites to talk about important topics in this space.

In this room, we find sterile and cleaning elements, like disinfectants, toilet paper, etc.

In In this room, nurse can relax and chat after hours of work.
