4TH INTENSIVE
Test 4

Student's name: _____
Book: Full Blast A2- Units 4 and 5

READING COMPREHENSION

Bill loves sci-fi movies specially those about Robots. Let's read the text.

Wall-E is a CGI animated movie about a little robot. It was directed by Andrew Stanton and it was created by Pixar Animation Studios. Most of the characters in the movie are robots so there aren't many speaking parts for actors.

The story follows Wall- E, the robot that was designed to clean up the Earth which is full of trash. Humans, who evacuated the Earth 700 years earlier because they had destroyed the environment, live on a huge spaceship in another part of the galaxy. In the beginning, many robots like Wall- E were created but now Wall- E is the only one left. During all these years, he has built huge towers of trash. Another robot called Eve is sent to Earth to search for life. Wall- E becomes friends with her and shows her a plant he has found. She returns to the spaceship with the plant to show that life has returned to Earth. Wall- E follows her and they begin an exciting space adventure.

Wall- E is one of the most successful animated movies of recent times and it was awarded the Oscar for Best Animated Feature. It also shows us how important the environment is, and how we can stop destroying it.

Read again and answer the questions. (5x2=10)

1. Who directed the movie Wall- E?

2. Why weren't many actors needed to make the movie?

3. What was Wall- E created to do?

4. Why aren't there any humans on Earth?

5. How long did humans leave the Earth?

Read again and choose True or False. (6x2=12)

1. Wall- E was programmed to conquer the world. TRUE FALSE
2. Eve is a robot sent to Earth to search for life. TRUE FALSE
3. Towers of trash were built for 12 months. TRUE FALSE
4. A plant confirmed the existence of life on Earth. TRUE FALSE
5. Wall- E isn't a successful animated movie. TRUE FALSE
6. Wall-E movie focuses on the importance of the Environment. TRUE FALSE

LIVEWORKSHEETS

LANGUAGE IN USE

2- **Bill is reading some environmental facts. Read them and complete the sentences using Present or Past Passive Voice.** (1x10=10)

ENVIRONMENTAL FACTS

PRESENT

- 50.000 aluminum cans ..... (make) in a minute.
- However, only 20% of these cans ..... (recycle) every year.
- 2.500.000 plastic bottles ..... (throw) every hour in the USA.
- One million sea animals ..... (kill) by plastic bags every year.
