

Personal Narrative

A narrative is a story. **Personal narratives** are stories people tell about themselves. In these stories, the writers call themselves ***I*** or ***me***. When you write a personal narrative, your purpose, or plan, might be able to tell about something you did or about something that happened to you. You might also express how you feel about certain things.

Sentences in personal narratives tell what happens in the beginning, middle, and the end. To write a personal narrative, good writers tell about things in the order in which they happen. You can use the writing process to help you plan and write your narrative.
